

School Improvement Council Nomination Ballot 2019-2020 School Year

Each year schools across South Carolina hold an election for the School Improvement Council at the school. While there are other booster organizations in each school, such as our PTO-Leadership Team, the SIC is a group that is mandated by legislation to offer support, advice, and input to the school administration and instructional team about our work in ensuring that we are offering the best program possible for our students. Our SIC will meet on Friday mornings at 8:15 on the last school Friday of each month. If you are interested in serving or know of someone who might be interested, please let us know. We need you! It is time to elect two new parent representatives to join the SIC. We need you! **Please submit this nomination ballot to the school office by Monday, September 9, 2019.** You can nominate yourself or another parent you feel will be a great representative for our SIC. We hope you will consider joining us! It is a great way to support our school and also give input about what we do! (Parents, grandparents, guardians and community members are all welcome to be a part of our School Improvement Council!)
