Summer Math Practice

2019 East End Summer Math Program

June 18th —August 19th

East End Elementary School

We hope to keep the math skills of all our EEE students "sharp and ready" for the 2019-2020 school year. Every child who practices math for at least 20 minutes for 20 days over the summer (this brochure has 44 spaces for the summer math practice) will receive a special treat , medal recognition, and extra recess from Mrs. Day. The student who practices the most in each grade level will receive a special recognition when school starts back. The practice can be on any of the websites that are included on enrichment websites such as those noted below, or by using basic facts cards for addition, subtraction, multiplication or division (which are available at the local discount stores such as the Dollar Tree) or any other math practice that the parent chooses to use. Sample websites for practice include:

http://www.adaptedmind.com/index.html

http://www.ck12.org/assessment/ui/browse

http://interactivesites.weebly.com/math.html

BB and Batson want to award the students that practice their math this summer.

- Each student who practices at least 20 different days for a minimum of 20 minutes each day and returns this math log will receive a special treat and extra recess with Mrs. Day.
- The top person in each grade level will have an award and special recognition.
- The top person overall will have an an award and special recognition.

Practice over the summer will keep enrich the math skills of all our students. We hope all students will participate!

Logs are due to Mrs. Day by August 31st. Winners will be announced after Labor Day.

Summer Math Log

Each line equals 20 minutes of math practice
